About This Game

BUSINESS IN THE FRONT. BODIES IN THE BACK.

The entire island is up for grabs... or at least, could be with the right business model.

Shakedown: Hawaii combines open world action and empire building. Build a "legitimate" corporation by completing open world missions, acquiring businesses, sabotaging competitors, "re-zoning" land, and shaking down shops for protection money.

Shakedown: Hawaii parodies big business, and the most absurd business practices that go alongside. You're the CEO, and questionable subsidiaries, misleading ads, fine print, hidden service fees, and marketing spin are the tools of your trade.

From the boardroom to the streets, build your corporate empire and destroy the competition.
